Holiday Season and a Prosperous 2020*

Nafcoc closing statement for 2019

As the year ends we reflect on how remarkable this year has been, our organization has filtered to all structures in all provinces, all singing from the same hymn book, that is, being the impactful organization to South African entrepreneurs. We have reignited the interest of structures, with the intention to grow membership exponentially and understanding the reason for our existence. We intend improving governance of the organization with enhanced transparency and integrity.
